PUBLIC INTERNET SERVICE

ABOUT OUR COMPANY

Public internet service Leverages blockchain technology to create a wifi decentralized APPLICATION

Our primary technology in carrying out our volume of work will be the PIA WIFI DAPP. Pia Decentralized application rewards any WIFi user for browsing the internet anytime, this rewards can be use to shop for vouchers and discounts items available on the application. It can also be transferred to an external wallet.

PUBLIC INTERNET SERVICE

VISION

To Tokenize the WiFi Experience

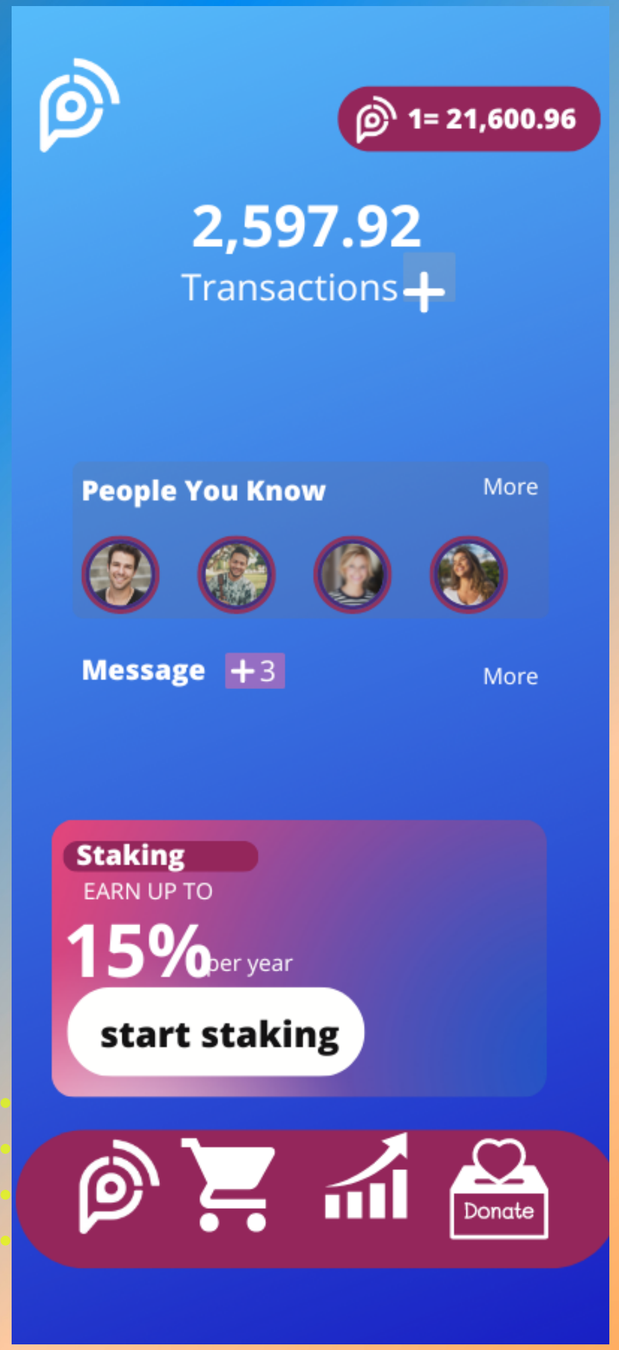
MISSION

Simplifying Complex Network through decentralization.

PUBLIC INTERNET SERVICE

PRODUCT OVERVIEW

Wifi is no longer just a convenient accessory, it has become indispensable to our daily lives, this is why we developed a Decentralized wifi reward application. that would reward millions of wifi users, just by connecting their Mobile phones to any wifi device. welcome to the Pia wifi DAPP Pitch Deck.



- Pia wifi dapp users stake pia token to earn and attractive 15% yield and access rewards
- Millions of Non-crypto users will be incentivize and rewarded with piatoken.
- Examples of rewards: Call Cards, discounted voucher for big brands like Airbnb, Amazon Nike Adidas and many more.

What is Piatoken?

Pia token is the Utility token of the PIA WIFI DECENTRALIZED APPLICATION, it is a new crypto-currency That will be Minted Through the pia wifi DAPP just by connecting to any wifi solution. We designed the Pia token to incentivize Millions of WiFi users and to bring value to the spent online

Estimated Total Download

400M+ In 5years

www.thepublicwifi.com

We are building a WIFI Decentralized Application to connect and incentivize millions of wifi users and bring a community of non-crypto users.

We are well positioned to take on the Market we are pretty optimistic that we will meet our set targets of generating enough profit from our first year of operation. We have been able to examine the WiFi hotspot service market critically, we have analyzed our chance in the industry, and we have been able to come up with the following sales forecast. The sales projections are based on the information gathered in the field.
